## TO ALL PATIENTS OF: Quick Family Urgent Care

Since 08/21/96, Health Insurance Portability and Accountability Act (HIPAA) has impacted all areas of the health care industry and was designed to improve the efficiency of health care by standardizing the exchange of administrative and financial data, and to protect the privacy, confidentiality and security of health care information. A major concern in the law was the security and privacy of electronic health records and their transmission between health care entities. The securities consist of more than just firewalls. Organizations must ensure the confidentiality and integrity of their health records, and transmission of data must be authenticated and have the property of nonrepudiation. Additionally, security policies and procedures must be documented and implemented.

*Quick Family Urgent Care* has a policy requiring all employees to read and sign a confidentiality agreement. This agreement states that the employee understands that we process confidential data, and that the employee agrees not to directly or indirectly disclose any information in an inappropriate manner. *Quick Family Urgent Care* aggressively enforces this and other agreements with entities to which we transmit transactions or from which we receive transactions, such as clearinghouses. *Quick Family Urgent Care* will neither pursue nor knowingly retain a customer relationship with an entity that is either unwilling or unable to concur with reasonable privacy and confidentiality obligations.

*Quick Family Urgent Care* recognizes that the transfer of medical data must be carried out in a manner that minimizes the risk of inappropriate disclosure and that safeguards the privacy and confidentiality of data that may identify individuals in their roles as patients and consumers. *Quick Family Urgent Care* corporate policy is to observe all existing state and federal laws and regulations relating to the transmission, storage, and access of records and other health care data, and to maintain the security and confidentiality of patient-specific information.
